Questions and questioning are key skills in successful learning. The original Q Tasks was instrumental in showing teachers how to give students the tools they need to develop their own questions and build critical thinking and inquiry skills. This new, totally revised edition continues to nurture and advance these crucial skills, and also offers Q-task extensions that introduce digital components that facilitate collaboration and are designed to appeal to tech-savvy students. More than 100 practical, flexible exercises in this remarkable book provide a smorgasbord of choices for teachers to use to help students formulate good questions in an information-rich environment. They put the students at the centre of their own learning as they build the library and research skills that are essential to our information age. Teachers will find innovative ways to help

students go beyond memorization and rote learning of facts to focus on personal understanding, and true ownership of the learning experience. In the future, many animals can talk, and some have jobs. With a light touch and sensible techniques, Dr. Jim Petersen distills years of counseling and pastoral ministry into an informal volume loaded with practical tips, examples and techniques to practice. His book highlights our culture's courtroom-like communication that often puts people at odds with each other. Most people think they listen well but don't and folks walk away unheard, misunderstood and disconnected. Readers will chuckle in recognition at the tongue-in-cheek but spot-on "flat-brain" theory of emotions. It shows how and why we get upset and confused in tense situations and what to do about it. It lays the practical groundwork to better manage emotionally loaded situations. This book shows communication that works and is equally appropriate for professionals, such

as pastors and therapists and for the general public. The ingenious Talker-Listener Card gives a taking-turn method to end arguing as we know it. It works for couples, business relationships, church listening programs, counselors, group discussions and the family dinner table listening game. Thirty listening techniques will help the reader immediately begin to turn enemies into friends, poor relationships into decent ones and good relationships into better ones. These accessible skills are being used in pastoral counseling classes, counseling offices, church staffs, professional offices, on dates, in corporate board rooms and at kitchen tables around the country .

Fragments: Growing up Bohemian Poor In Dementia's House, a collection of illustrated short stories about growing up bohemian poor with an artist father and crazy, zany mother, paints the author's life as a child, teenager, and adult dealing with a mentally ill mother who slid into dementia in her later years. Memories, triggered by houses the author lived in from 1950 to 1964 and later, physical houses, metaphorical houses or spaces, or a house of dementia, transport you through turmoil and joy. A

quick read, it's got humor, tragedy, nudity, and sex. BIOGRAPHY & AUTOBIOGRAPHY: FILM, TELEVISION, MUSIC, THEATRE. The Sayles might not have been the only Jewish atheist communist family in Liverpool, but Alexei knew from an early age that they were one of the more eccentric. Born on the day egg rationing came to an end, Alexei was the only child of Joe, an affable trade unionist who led the family on railway expeditions across eastern Europe, and Molly, a hot-tempered red-head who terrified teachers and insisted Alexei see the Red Army Choir instead of the Beatles. Perceptive and hilarious, this is a portrait of a family, a city, a country and a continent going through enormous changes. The main purpose of this Research Topic is to analyze and identify the main family and contextual variables that are involved in the process of carrying out homework. This will require studying the role played by teachers, students, and families in order to ensure that schoolwork is a useful learning tool. Although the role of the student is, obviously, crucial in homework, research has focused on the cumulative time spent by the student carrying out homework. However, the time spent on homework is not in itself

evidence of the student's involvement nor is time spent indicative of quality time. Indeed, an excess of time can sometimes denote low competence in a field of knowledge, while spending less time on homework could be indicative of high competence. It is more likely that a high dedication of time spent on homework reflects high motivation, or comprehension deficits, rather than commitment to learning or academic motivation. In tandem with the role of the student, teachers, as responsible for prescribing homework assignments for students, also become central players in the process of completing homework assignments. The decisions that teachers make about homework prescriptions, and the amount and type of tasks they set, will determine, to a large extent, the quality of the homework process including the student's motivation and the student's level of engagement with homework. Furthermore, the fact that homework is useful, interesting and motivating for students, will depend on how the teacher prescribes those tasks and the connection established with classroom learning. Teacher feedback also acquires particular relevance for this point by helping the students to

accurately estimate the quality of their progress and overcome the difficulties they may have encountered in carrying out their homework. Lastly, the effectiveness of teacher feedback depends on its contribution to the student's educational progress and how that student will perform in the future. In addition to the student who performs the task and the teacher who prescribes and corrects it, we must not lose sight of parents' role. Although there are discrepancies regarding the role that parents play in relation to homework, it is evident that their implication has important consequences not only on the final result of those tasks but also on the very process of carrying them out. Everything seems to indicate that the family environment and, more specifically, the support and feedback provided by parents is a factor that can determine the involvement of students in school duties. In this way, providing emotional support encouraging children to get involved can contribute positively to improving their motivation and interest in the performance of homework. The objective of this Research Topic is to provide researchers and professionals in psychology and education settings with some of the most

recent empirical evidence regarding the homework process, its prescription and correction. Overall, we aim to cease making homework a source of conflict and controversy at the socio-educational level in order to provide useful instruments for improving the quality of student learning. This work was developed with the financing of the research projects EDU2013-44062-P (MINECO), EDU2017-82984-P (MEIC). It was supposed to be a routine test tube baby situation, but suddenly everything went wrong. The problem was Master Luke Crawford, the heir to the Crawford empire, mature and composed, cold and domineering. Once he put his mind to it, there was nothing in the world he could not do! She had thought that they would go their completely separate ways after she delivered the children. Five years later, however, the man dragged two adorable babies along and waited for her in front of her dorms, despite everyone watching! Mr. Crawford was cold and emotionless in front of everyone else, but in front of her... A true-adventure, coming-of-age tale set in the exhilarating first wave of Beatlemania ... It's 1964, and 16-year-old Janice is struggling in a grim foster home in Cleveland when she falls suddenly, deeply in

love ... with the Beatles. They and their music stir in her an ecstatic new sense of freedom. With a friend, she hatches a bold plan to escape their dreary lives and run away to London to meet the Fab Four. On their own for the first time—in “Beatleland”—they explore a new city, a new culture, and a new life, visiting the hippest clubs of Soho, meeting some nice English boys, hitchhiking to Liverpool ... But unbeknownst to them, the runaways have become international news—and a hunt is on. Adventure and newfound freedom end abruptly when Janice is apprehended by London police and hauled home to Cleveland and an unforgiving juvenile justice system. Warned by responsible adults to put it all behind her, she doesn't speak of her extraordinary adventure for more than fifty years. In this memoir, she looks back with fresh insight on the heady early days of Beatlemania and an era in America when young women exercising some control over their lives presented a serious threat to adult society. A step-by-step guide for therapists who want to start implementing homework or to increase the effectiveness of assignments, this hands-on book is ideal for clinicians from any theoretical orientation. Through the stories of Dwyer's own four dogs—from therapy dog Shelby, who visits adult daycare facilities, to Spartacus, who attentively looks his

owner in the eye when being reprimanded—*The Dog Ate My Homework—or Did He?* reveals seven powerful areas of accountability that are key to success in business and in life. Readers will discover how to unlock the power of accountability to advance one's career leverage accountability to drive maximum performance forge deeper relationships and attain greater personal fulfillment unlock the power of accountability to advance one's career leverage accountability to drive maximum performance forge deeper relationships and attain greater personal fulfillment. Excerpt: ...tribe. He had faculties. He had also various idiosyncrasies. He was undeniably

the best hunter and trapper and trainer of dogs to sledge, as well as the most expert upon snowshoes of all the Indians living upon the point, and he was, furthermore, one of the dirtiest of them and the biggest drunkard whenever opportunity afforded. Fortunately for him and for his squaw, Bigbeam, as she had been facetiously named by an agent of the company, the opportunities for getting drunk were rare, for the company is conservative in the distribution of that which makes bad hunters. Given an abundance of firewater and tobacco, Red Dog was the happiest Indian between the northern boundary of the United States and Lake Gary; deprived of them both he hunted vigorously, thinking all the while of the coming hour when, after a long journey and much travail, he should be in what was his idea of heaven again. To-day, though, the rifle bought from the company stood idle beside the ridge-pole, the sledge dogs snarled and fought upon the snow outside, and Bigbeam, squat and broad as became her name, looked askance at her lord as she prepared the moose meat, uncertain of his temper, for his face was cloudy. Red Dog was, in fact, perplexed, and was planning deeply. Good reason was there for Red Dog's

thought. Events of the immediate future were of moment to him and all his fellows, among whom, though no chief was formally acknowledged, he was recognized as leader; for had he not at one time been with the company as a hired hunter? Had he not once gone with a fur-carrying party even to Hudson's Bay, and thence to the far south and even to Quebec? And did he not know the ways of the company, and could not he talk a French patois which enabled him to be understood at the stations? Now, as fitting representative of himself and of his clan, a great responsibility had come upon him, and he was lost in as anxious thought as could come to a biped of his quality.
