*Cholera Feb 02 2021 Cholera, which is caused by pathogenic strains of *Vibrio cholerae*, continues to threaten public health and socio-economic development in many developing countries, particularly those that lack access to potable water and adequate sanitation. The emergence of new *V. cholerae* strains and the severity of recent cholera outbreaks that began in August 2008 in Zimbabwe, coupled with climate change and elevated antimicrobial resistance, highlighted the dynamics of cholera. For these reasons, cholera was placed at the forefront of world public health agenda. This book discusses the recent cholera outbreaks in*

*Africa, with particular emphasis on the causes, epidemiology, virulence factors, diagnosis, treatment and possible methods of curbing V. cholerae-induced epidemics in the future.*

*Bacterial Invasiveness Sep 09 2021 Intracellular pathogens are responsible for a number of important diseases worldwide, including tuberculosis, plague and bacillary dysentery. This volume focusses on those intracellular pathogens that have been studied most extensively at the molecular, genetic, and cellular level. The reviews attempt to integrate the information derived from these diverse approaches into a cohesive picture. In recent years the entry steps have been described at the molecular and genetic level, and the important signal transduction events are being elucidated. It is now becoming clear that there are both similarities and differences both in terms of the steps involved and of the genetic basis of bacterial invasiveness. These reviews of the "state of the art" provide a foundation from which to proceed.*

*Organizing Entrepreneurial Judgment Jul 19 2022 Entrepreneurship, long neglected by economists and management scholars, has made a dramatic comeback in the last two decades, not only among academic economists and management scholars, but also among policymakers, educators and practitioners. Likewise, the economic theory of the firm, building on Ronald Coase's (1937) seminal analysis, has become an increasingly important field in economics and management. Despite this*

*resurgence, there is still little connection between the entrepreneurship literature and the literature on the firm, both in academia and in management practice. This book fills this gap by proposing and developing an entrepreneurial theory of the firm that focuses on the connections between entrepreneurship and management. Drawing on insights from Austrian economics, it describes entrepreneurship as judgmental decision made under uncertainty, showing how judgment is the driving force of the market economy and the key to understanding firm performance and organization.*

*Giving Nov 11 2021 Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations-and by individuals-to solve problems and save lives both 'down the street and around the world'. Then it urges us to seek out what each of us, 'regardless of income, available time, age, and skills', can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton's own actions in his post-presidential years*

*have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving.*

*Long Walk To Freedom Nov 23 2022 These memoirs from one of the great leaders of our time are 'essential reading for anyone who wants to understand history - and then go out and change it' Barack Obama The riveting memoirs of the outstanding moral and political leader of our time, Long Walk to Freedom brilliantly re-creates the drama of the experiences that helped shape Nelson Mandela's destiny. Emotive, compelling and uplifting, Long Walk to Freedom is the exhilarating story of an epic life; a story of hardship, resilience and ultimate triumph told with the clarity and eloquence of a born leader. 'Enthralling . . . Mandela emulates the few great political leaders such as Lincoln and Gandhi, who go beyond mere consensus and move out ahead of their followers to break new ground' Sunday Times 'The authentic voice of Mandela shines through this book . . . humane, dignified and magnificently unembittered' The Times 'Burns with the luminosity of faith in the invincible nature of human hope and dignity . . . Unforgettable' Andre Brink*

*Pedagogical Knowledge and the Changing Nature of the Teaching Profession Mar 03 2021 Highly qualified and competent teachers are fundamental for equitable and effective education systems. Teachers today are facing higher and more complex expectations to help students reach their full potential and become valuable members of 21st century society. The nature and variety of these demands imply that teachers, more than ever before, must be professionals who make decisions based on a robust and updated knowledge base. This publication presents research and ideas from multiple perspectives on pedagogical knowledge - the knowledge of teaching and learning - and the changing nature of the teaching profession. It provides a modern account of teachers' professional competence, and how this relates to student learning. The report looks at knowledge dynamics in the teaching profession and investigates how teachers' knowledge can be measured. It provides precious insights into 21st century demands on teacher knowledge. This volume also offers a conceptual base for a future empirical study on teachers' knowledge. It will be a useful resource for those interested in understanding the different factors underlying high quality teaching through examining and outlining the complexity of the teaching profession. In particular, this publication will be of interest to teacher educators, educational leaders, policy makers and the research community.*

*History Making and Present Day Politics Oct 30 2020 In this collection, some of South Africa's most distinguished historians and social scientists present their views on the importance of history and heritage for the*

*transformation of the South African society. Although popular use of history helped remove apartheid, the study of history lost status during the transition process. Some of the reasons for this, like the nature of the negotiated revolution, social demobilization, and individualization, are analyzed in this book. The combination of scholarly work with an active role in changing society has been a central concern in South African history writing. This book warns against the danger of history being caught between reconciliation, commercialization, and political correctness. Some of the articles critically examine the role of historians in ideological debates on gender, African agency, Afrikaner anti-communism, early South African socialism, and the role of the business world during late apartheid. Other contributions explore continuing controversies on the politics of public history in post-apartheid South Africa, describe the implementation of new policies for history education, or investigate the use of applied history in the land restitution process and in the TRC. The authors also examine a range of new government and private initiatives in the practical use of history, including the establishment of new historical entertainment parks and the conversion of museums and heritage sites. For readers interested in nation building processes and identity politics, this book provides valuable insight.*

*Not So Fast Songololo Mar 15 2022 A touching tale of young and old, full of the colours and smells of an African township. Songololo goes into the city with Gogo to help her do the shopping. Gogo walks very slowly, but Songololo likes to take his time as well. Grandmother and grandson enjoy a leisurely stroll around the busy African city, ending with a special reward for Songololo, for helping Gogo so well.*

*Mindset Sep 21 2022 From the renowned psychologist who introduced the world to “growth mindset” comes this updated edition of the million-copy bestseller—featuring transformative insights into redefining success, building lifelong resilience, and supercharging self-improvement.*

*“Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous*

*influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes “It’s not always the people who start out the smartest who end up the smartest.” After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.*

*Educational Research and Innovation Pedagogical Knowledge and the Changing Nature of the Teaching Profession Nov 30 2020 Highly qualified and competent teachers are fundamental for equitable and effective education systems. *English Across the Curriculum Aug 08 2021 Inspired by papers presented at the second international English Across the Curriculum (EAC) conference, this book provides a platform for those involved in the EAC movement to exchange insights, explore new strategies and directions, and share experiences. It speaks not only to EAC practitioners but also to scholars in a range of related fields, whether they are*

*considering starting an EAC-like initiative or are already involved in an established EAC, Content and Language Integrated Learning (CLIL), or Writing Across the Curriculum (WAC) program. The chapters in the book testify to challenges faced, opportunities presented, and a passion displayed for embedding academic English literacy in courses in a range of disciplines at institutions around the world. They also highlight the persistence and determination of teachers in creating and shaping valuable learning experiences and ongoing support for their students.*

*Analysis of Genetic Association Studies Dec 12 2021 Analysis of Genetic Association Studies is both a graduate level textbook in statistical genetics and genetic epidemiology, and a reference book for the analysis of genetic association studies. Students, researchers, and professionals will find the topics introduced in Analysis of Genetic Association Studies particularly relevant. The book is applicable to the study of statistics, biostatistics, genetics and genetic epidemiology. In addition to providing derivations, the book uses real examples and simulations to illustrate step-by-step applications. Introductory chapters on probability and genetic epidemiology terminology provide the reader with necessary background knowledge. The organization of this work allows for both casual reference and close study.*

*Learning for Success : Skills and Strategies for Canadian Students Aug 20 2022 This book presents a comprehensive, systematic approach to the development of learning strategies.*

*Disaster and Emergency Management Methods Apr 04 2021 Find the answers to disaster and emergency management research questions with Disaster and Emergency Management Methods. Written to engage students and to provide a flexible foundation for instructors and practitioners, this interdisciplinary textbook provides a holistic understanding of disaster and emergency management research methods used in the field. The disaster and emergency management contexts have a host of challenges that affect the research process that subsequently shape methodological approaches, data quality, analysis and inferences.*

*In this book, readers are presented with the considerations that must be made before engaging in the research process, in addition to a variety of qualitative and quantitative methodological approaches that are currently being used in the discipline. Current, relevant, and fascinating real-world applications provide a window into how each approach is being applied in the field. Disaster and Emergency Management Methods serves as an effective way to empower readers to approach their own study of disaster and emergency management research methods with confidence.*

*The Great World War May 25 2020*

*The Green Studio Handbook Jan 01 2021 The Green Studio Handbook remains an essential resource for design studios and professional practice. This extensive and user-friendly tool presents practical guidelines for the application of green strategies during the schematic design of buildings. Students and professionals can quickly get up to speed on system viability and sizing. Each of forty-three environmental strategies includes a brief description of principles and concepts, step-by-step guidance for integrating the strategy during the early stages of design, annotated tables and charts to assist with preliminary sizing, key issues to consider when implementing the strategy, and pointers to further resources. Ten new in-depth case studies illustrate diverse and successful green buildings integrated design projects and how the whole process comes together This third edition features updated tables and charts that will help to save energy, water, and material resources during the early stages of design. More than 500 sketches and full-color images illustrate how to successfully apply strategies. A glossary, a project index listing 105 buildings in 20 countries, updated tables and drawings, and I-P and SI units increase the usefulness of The Green Studio Handbook.*

2022 German immigrant Eugene Dietzgen (1862-1929) founded his own Chicago engineering supply house in 1885. This 1930 pamphlet describes how best to use their drafting and drawing kits.

Green Marketing in Emerging Economies Oct 22 2022 Literature on green marketing continues to gain traction in the sustainability discourse, focusing on core subject areas such as green product development, green marketing strategy and green advertising. Achieving green marketing success encompasses influencing, orientating, and communicating green offerings of an organisation to the consumers. Emerging markets particularly provide unique opportunities for green product innovations to thrive due to their rapid industrialisation and economic growth; hence the value proposition of organisations must be rightly communicated to the consumers. The book is part of a multi-volume work that highlights the goals of green marketing, such as influencing consumers' green adoption, behaviour, and attitude towards sustainability practices. This book provides insights to researchers, students and practitioners interested in marketing and sustainability initiatives in the context of emerging markets. It is also recommended for marketing managers and brand consultants who desire an in-depth understanding of how to communicate their organisation's green offerings while positioning the organisation as a green brand to influence consumers' green purchasing behaviours.

In Pursuit of Dignity Jan 25 2023 This book "by Mohamed Enver Surty, the Deputy Minister of Basic Education, entitled *In Pursuit of Dignity* which is a collection of vignettes" relate to "his professional, social, constitutional, parliamentary and executive activism"--Al Qalam Reporter.
