The Greek-Turkish Relationship and NATO Jul 07 2021 This publication shows that the Eastern Mediterranean, having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post-Cold War era, is in a state of flux. Despite sporadic periods of rapprochement, tensions between Greece and Turkey still exist. Therefore, one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on the NATO organisation as a whole. Hence, this volume has two purposes first, to examine Greek and Turkish foreign, security and defence policies during and after the post-Cold War period and second, to investigate why these policies have been formulated.

Turkey and Its Destiny Jan 21 2020

Maplecrest Turkey Farms, Inc. Jun 06 2021 In the late 1920s until 1965 Maplecrest Turkey Farms of Wellman, Iowa, was a leading pioneer in the modern commercial turkey industry. A. C. Gingerich, an Amish-Mennonite farmer and entrepreneur, was able to successfully develop his business from a handful of turkeys to make Wellman both a “Turkey Capital/Center of the World” and have it uniquely proclaimed as “Thanksgiving Town” by the late 1930s. The Maplecrest brand was known for its premium quality and was available, by name, in leading restaurants also by the late 1930s. This historical book looks at how the modern turkey industry was able to initiate itself largely through knowledge of disease prevention through sanitation means. Some chapters include topics such as how the turkeys were raised, processed and marketed, especially to Eastern markets, e.g. New York City, Boston, etc., and a chapter on World War II discusses the major role that Maplecrest played in producing not only turkeys, but beef, pork and lamb for the armed forces.

Life in Asiatic Turkey Feb 14 2022 This travel diary covers territory in Syria and the rural Asian provinces of the Ottoman Empire, areas the author deems to be sadly unvisited by American tourists. The author made a special effort to avoid officials, rather spending time with average people, and he was sympathetic to them. He asserts that Christians are not especially oppressed by the government; rather both Muslims and Christians are misruled. The book was researched and written in the aftermath of the Russo-Turkish War and so the author includes discussion of the relative virtue of Russian rule as well as the impact of the war on the common people. Much of the account is taken up with describing the landscape and physical features of the territory rather than just cultural description and political commentary. The author includes a historical summary of the region and an analysis of the Muslim poor in separate sections at the end of the book.

Infectious Diseases of Turkey Mar 15 2022 Infectious Diseases of Turkey is one in a series of GIDEON ebooks which explore all individual infectious diseases, drugs, vaccines, outbreaks, surveys and pathogens in every country of the world. Data are based on the GIDEON web application (www.gideononline.com) which relies on standard text books, peer-review journals, Health Ministry reports and ProMED, supplemented by an ongoing search of the medical literature. Chapters are arranged alphabetically, by disease name. Each chapter is divided into three sections: 1. Descriptive epidemiology 2. Status of the disease in Turkey 3. References A chapter outlining the routine vaccination schedule of Turkey follows the diseases chapters. There are 364 generic infectious diseases in the world today. 222 of these are endemic, or potentially endemic, to Turkey. A number of other diseases are not relevant to Turkey and have not been included in this book. In addition to endemic diseases, all published data regarding imported diseases and infection among expatriates from Turkey are included.
