Adopting an innovative, open-learning approach to introduce the main principles of financial management in an accessible, non-technical way, this fully updated fifth edition provides a unique focus on the practical application of financial management and its role in decision making. New to this edition: Expanded coverage of key topics such as financing the business Increased coverage of corporate governance issues Even more real-world examples to help illustrate the practical application and importance of the topics discussed Financial statements throughout

based on the latest International Accounting Standards Full-colour design, packed with pedagogical features, providing an original learning experience Key features: Written in a unique, 'open learning' style Clear explanations and minimal technical jargon to aid understanding -no previous knowledge of financial management is assumed Based on a solid foundation of theory, but focusing throughout on its value for decision making Covering all the main areas of financial management in sufficient detail to provide a good grasp of the subject Numerous examples, activities and exercises throughout, allowing the reader to test his/her knowledge at frequent intervals Fully supported by a comprehensive range of student and lecturer learning resources, Financial Management for Decision Makers is ideal for undergraduates from a non-finance/accounting discipline taking an introductory module in financial management, and postgraduate/postexperience students on courses such as the ACCA Diploma in Financial Management, Diploma in Management Studies and MBA programmes. The text is also suitable for finance and accounting students as a foundation for further study. Peter Atrillis a freelance academic and author working with leading institutions in the UK, Europe and SE Asia. He has previously held posts as Head of Business and Management and Head of Accounting and Law at University of Plymouth Business School. In a groundbreaking text that will inspire literacy educators, the authors here describe research on low-literate, poor buyers and sellers in subsistence marketplaces. They examine the consequent development of an innovative marketplace literacy educational program that enables consumer and entrepreneurial literacy. Then, they look at the implications of the research and the educational program for business, education, and a variety of disciplines and functions. When you think of marketing you may think of the adverts that pop up at the side of your screen or the billboards you see when you're out - all those moments in the day when somebody is trying to grab your attention and sell you something! Marketing is about advertising and communications in part, but it's also about many other things which all aim to create value for customers, from product research and innovation to after-care service and maintaining relationships. It's a rich and fascinating area of management waiting to be explored - so welcome to Marketing! Jim Blythe's Principles and Practice of Marketing will ease you into the complexities of Marketing to help you achieve success in your

studies and get the best grade. It provides plenty of engaging real-life examples, including brands you know such as Netflix and PayPal - marketing is not just about products, but services too. Marketing changes as the world changes, and this textbook is here to help, keeping you up to speed on key topics such as digital technologies, globalization and being green. The companion website offers a wealth of resources for both students and lecturers and is available at www.sagepub.co.uk/blythe3e. An electronic inspection copy is also available for instructors.

The Olympic Games have become the definitive sports event, with an unparalleled global reach and a remarkably diverse constituency of stakeholders, from the IOC and International Federations to athletes, sponsors and fans. It has been estimated, for example, that 3.6 billion people (about half of the world population) watched at least one minute of the Beijing Games in 2008 on television. The driving force behind the rise of the modern Olympics has been the Olympic marketing programme, which has acted as a catalyst for cooperation between stakeholders and driven the promotion, financial security and stability of the Olympic movement. This book is the first to explain the principles of Olympic marketing and to demonstrate how they can be applied successfully in all other areas of sports marketing and management. The book outlines a strategic and operational framework based on three types of co-productive relationships (market, network and informal) and explains how this framework can guide professional marketing practice. Containing case studies, summaries, insight boxes and examples of best practice in every chapter, this book is important reading for all students and practitioners working in sports marketing, sports management or Olympic studies. For courses in Mathematics for Business and Mathematical Methods in Business. This classic text continues to provide a mathematical foundation for students in business, economics, and the life and social sciences. Abundant applications cover such diverse areas as business, economics, biology, medicine, sociology, psychology, ecology, statistics, earth science, and archaeology. Its depth and completeness of coverage enables instructors to tailor their courses to students' needs. The authors frequently employ novel derivations that are not widespread in other books at this level. The Twelfth Edition has been updated to make the text even more student-friendly and easy to understand. Marketing: A Relationship Perspective is back for a second edition and continues to set

a benchmark for achievement in introductory marketing courses across Europe. It is a comprehensive, broad-based, and challenging basic marketing text, which describes and analyzes the basic concepts and strategic role of marketing and its practical application in managerial decision-making. It integrates the 'new' relationship approach into the traditional process of developing effective marketing plans. The book's structure fits to the marketing planning process of a company. Consequently, the book looks at the marketing management process from the perspective of both relational and transactional approach, suggesting that a company should, in any case, pursue an integrative and situational marketing management approach. Svend Hollensen's and Marc Opresnik's holistic approach covers both principles and practices, is drawn in equal measure from research and application, and is an ideal text for students, researchers, and practitioners alike. The new edition of Marketing Communications delivers a rich blend of theory with examples of contemporary marketing practice. Providing a critical insight into how brands engage audiences, Fill and Turnbull continues to be the definitive marketing communications text for undergraduate and postgraduate students in marketing and related fields. The eighth edition, which contains two new chapters, reflects the changing and disruptive world of marketing communications. Throughout the text the impact of digital media and its ability to influence audience, client, and agency experiences, is considered. Each chapter has been extensively revised, with new examples, the latest theoretical insights, and suggested reading materials. Each of the 22 chapters also has a new case study, drawn from brands and agencies from around the world. Marketing Communications is recognised as the authoritative text for professional courses such as The Chartered Institute of Marketing, and is supported by the Institute of Practitioners in Advertising. `A text that successfully bridges the gap between academic theorizing and practitioner applicability because it uses multiple real-world examples/mini-cases of management techniques to illustrate the well-researched academic theoretical foundations of the book' - Creativity and Innovation Management `A complete and useful treatment of the domain of product and service decisions. This book is unique in its treatment, dealing with product and service portfolio evaluation, new product/service development and product/service elimination in an integrated manner. Enlivened by many mini-cases, the

book provides a soup-to-nuts approach that will prove very attractive for students and be a valuable reference for managers as well. Highly recommended' - Gary L Lilien, Distinguished Research Professor of Management Science, Penn State University `Product and Services Management (PSM) is a welcome, up to date summary of the key issues facing firms in developing and refreshing their portfolios. The examples and cases bring the academic arguments clearly into focus and demonstrate the crucial role of PSM in leading the overall strategy of the firm' - Professor Graham Hooley, Senior Pro-Vice-Chancellor, Aston University, Birmingham `Managers responsible for and students interested in product portfolio decisions previously had to consult several sources for obtaining up-to-date information; books on new product development, articles on service development, readers on product management, and frameworks for product evaluation and termination. With the book Product and Services Management the reader obtains four-in-one. Avlonitis and Papastathopoulou reveal in a compelling and comprehensive manner why product decisions are the cornerstone of modern marketing and business, and illustrate the theory with numerous mini-cases from Europe and elsewhere. A must read for everyone with a passion for products' - Dr Erik Jan Hultink, Professor of New Product Marketing, Delft University of Technology This book provides a holistic approach to the study of product and services management. It looks at the key milestones within a product's or service life cycle and considers in detail three crucial areas within product management, namely product/service portfolio evaluation, new product/service development and product/service elimination. Based on research conducted in Europe and North America, this book includes revealing cases studies that will help students make important connections between theory and practice. The pedagogical features provided in each chapter include chapter introduction, summary, questions and a further reading section. Additional material for instructors include PowerPoint slides and indicative answers to each chapter's questions. This book is written for undergraduate and postgraduate students of business administration who are pursuing courses in marketing, product portfolio management, new product development and product policy.
