It is a universally accepted truism that Jerusalem is a unique city. It stirs up strong emotions among adherents of various religions as it is the centre of three religions, and it is subject of conflicting national aspirations of two peoples. The diverse attitudes and wishes associated with the city are expressed, inter alia, in certain documents. This collection is meant to present to the reader the most important of these documents. This, it is hoped, will help to understand the difficulties and may assist in the search for solutions. There may be differences of opinion over historical facts and the documents may be subject to differing interpretations. Convenient access to the relevant documents is a prerequisite for any attempt to understand the problem and seek solutions. The collection includes documents concerning the status of Jerusalem from the point of view of Israel's law and administration, as well as documents from the Arab world and from the international sphere. The editors have focused on official documents and in particular on those that have had a practical influence on the status of the city, or are likely to do so in the future. The collection will assist students and scholars who seek to understand the special status of Jerusalem, as well as politicians and diplomats who are responsible for ensuring its welfare and prosperity. In the tradition of the preceding volumes - the first of which was published in

1964 - this work synthesizes edited documents, including correspondence, ship logs, muster rolls, orders, and newspaper accounts, that provide a comprehensive understanding of the war at sea in the spring of 1778. The editors organize this wide array of texts chronologically by theater and incorporate French, Italian, and Spanish transcriptions with English translations throughout. This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users. Excerpt from Copies of Proclamations, Orders in Council and Documents Relating to the European War The Committee of the Privy Council have had before them a report from the Secretary of State, dated 12th November, 1914, representing that since the outbreak of the European War a large number of Proclamations, Orders in Council and Despatches has been published in the Canada Gazette, many of which have the force of Statutes and are required to be referred to constantly by those interested in dealing with such subjects as contraband, trading with the enemy, and allied subjects, and that many applications have been made to the Department of the Secretary of State for copies of all these documents. The Minister submits that it is advisable that a compilation, to date, should be prepared and published of all Proclamations, Orders in Council and Despatches published in the Canada Gazette and such documents as appear in the London Gazette as may be of interest to Canadians, together with other public documents referred to in the Gazettes aforesaid and that extra copies of all such documents as may be hereafter published in the Gazette be printed separately and issued concurrently with the issue of the Gazettes in which they may appear. The Minister, therefore, recommends that he be authorized to undertake the said compilation and to publish the same and that the cost thereof be paid by the Department of the Secretary of State out of a credit from the War Appropriation, as may subsequently be found to be necessary. The Committee concur in the foregoing and submit the same for approval. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
