Tony Northrup's Photography Buying Guide Apr 23 2020 If you're a beginner photographer, this book can save you hundreds of dollars. If you're a seasoned pro, it can save you thousands. With access to over 16 HOURS of online video, this book helps you choose the best equipment for your budget and style of photography. In this book, award-winning author and photographer Tony Northrup explains what all your camera, flash, lens, and tripod features do, as well as which are worth paying for and which you can simply skip. Tony provides information specific to your style of photography, whether you're a casual photographer or you're serious about portraits, landscapes, sports, wildlife, weddings, or even macro. For the casual reader, Tony provides quick recommendations to allow you to get the best gear for your budget, without spending days researching. If you love camera gear, you'll be able to dive into 200 pages of detailed information covering Nikon, Canon, Sony, Micro Four-Thirds, Olympus, Samsung, Leica, Mamiya, Hasselblad, Fuji, Pentax, Tamron, Sigma, Yongnuo, PocketWizard, Phottix, Pixel King, and many other manufacturers. Camera technology changes fast, and this book keeps up. Tony updates this book several times per year, and buying the book gives you a lifetime subscription to the updated content. You'll always have an up-to-date reference on camera gear right at your fingertips. Here are just some of the topics covered in the book: What should my first camera be? Which lens should I buy? Should I buy Canon, Nikon, or Sony? Is a mirrorless camera or a DSLR better for me? Do I need a full frame camera? Is it safe to buy generic lenses and flashes? What's the best landscape photography gear? Which portrait lens and flash should I buy? What gear do I need to photograph a wedding? How can I get great wildlife shots on a budget? Which sports photography equipment should I purchase? Should I buy zooms or primes? Is image stabilization worth the extra cost? Which type of tripod should I buy? Which wireless flash system is the best for my budget? How can I save money by buying used? What kind of computer should I get for photo editing? What studio lighting equipment should I buy? When you buy this book, you'll be able to immediately read the book online. You'll also be able to download it in PDF, .mobi, and .epub formats--every popular format for your computer, tablet, smartphone, or eReader!

How to Cheat in Photoshop CS4 Oct 22 2022 * New! Zip through the learning curve in a snap with the free DVD! * Hundreds of new Photo Objects, companion project files, QuickTime movie tutorials, sample plugins, and more. * Don't miss the website www.howtocheatinphotoshop.com complete with Reader Forum where Steve answers your questions directly! When you're short on time with crunching deadlines, but there's no way you can sacrifice quality, this book/DVD comes to the rescue. Nobody knows more about how to work fast under pressure and still produce top-notch photographic images than hands-on graphic artist and journalist, Steve Caplin. Steve cuts through the grind with on-the-job, do-it-now skills, techniques, and shortcuts guaranteed to show you how to work faster, smarter, and better to produce the best work of your life. With a lifetime of practical experience in photo-montage

Steve is the go-to person for professional designers, graphic artists, illustrators, photographic retouchers, and students of design media and illustration who want to create photorealistic effects using Photoshop. Updated for Photoshop CSX, this must-have resource is also backwards compatible - relevant to any version of Photoshop. 'How to Cheat in Photoshop CSX' helps you "cheat in" (or take advantage of) Photoshop in two important ways. You learn how to make images look like photographs, when they're not so that you can create photographic work without a studio. And you find useful shortcuts to work more efficiently, economically, and with quick solutions to achieve the same superb results that come from long, complex operations that take forever. Whether you're working for print or the web, dip into this book and extract the info you need - fast. Icons mark where Photoshop files or movie tutorials are available for you to open immediately to try for yourself. Stuck? Visit the Reader Forum on the web and question the author directly (and expect other readers to weigh in, too!) at www.howtocheatinphotoshop.com. Crammed with gems that other books simply don't cover, and unique in that it's written by a working professional sharing his tips on how he makes money producing this imagery, this book/DVD excels in practical tips to turn the ordinary into the awe-inspiring, quickly. Don't miss how to create new artwork from scratch from starting points that aren't always obvious. This fully updated new edition shows you how to get the most out of Photoshop CSX, including the Quick Selection and Cloning tools, and more. Yet it's backwards compatible with previous releases of Photoshop. The book's step-by-step tutorials alongside the DVD packed with hundreds of images, project files, and live tutorials show you how to: * Create convincing smoke effects and make effective explosions - the simple way * Take years off someone's appearance * Turn a photograph of someone looking straight into the camera into a different perspective with the entire head (not just the eyes) * Modify a statue so it looks like a living person or paint hair directly on any surface * Produce the perfect cutout in the shortest time with Photoshop CSX's new Quick Selection tool... and more A host of timesaving techniques and insider secrets teach you to work faster and more adeptly moving from the problem to the solution to get fantastic results! Steve Caplin is a professional graphic artist, author and journalist.
